

# Gymworks OT October 2020 School Holiday 'Spring has Sprung' Fun Programme

**1-100 Walters Drive Osborne Park**

Daily sessions Monday 5 Oct - Friday 9 Oct  
8:30am –noon (attend whole morning)

Gymworks OT is offering a daily therapy program where children attend from 8:30am to noon to complete a range of activities selected by our experienced team of therapists to develop children's perceptual motor (fine and gross) and thinking/problem solving skills. There will be a strong emphasis on developing writing skills across all activities. This will be a great opportunity to really work on children skills for an extended period. You may enrol for one or more days and can enrol for the whole week. Different activities and games will be held daily. There will be a morning tea break from 10:30am-11am so you will need to provide morning tea.

Children will be seen in small groups of 4-6 with two occupational therapy students overseen by a Gymworks OT. This program will only be eligible for a small private health fund rebate under a group rebate.

Places are limited. Program will only run given sufficient numbers.

Final confirmation will be given **Friday 18 September** and enrolments are required prior to this date.

Cost \$130 per child per day
